Capt. Gantz, arrived here this week, in the schooner Elizabeth, 28 days from Campeachy, states that a few days before sailing, advices were received there of Gen. Mina's having been EXECUTED in the neighbourhood of Mexico, on account of which, the town was brilliantly illuminated. Capt. Gantz further states, that it was asserted and fully credited that the followers of MINA were either dispersed or annihilated; of course, the cause of the Patriots in Mexico must be in a most forlorn state.

NEW-YORK, Jan. 14.

U. S. Mail-Coach, with a guard.—By an advertisement in the Philadelphia papers, we per-

ceive that hereafter, the U. S. mail coaches, that run between this city and Philadelphia, are to be provided with a guard, well armed, who will ride on the box with the driver; so that it will not only afford security to the mail, but also to the passengers. The way-mail is put in separate bags, after the European style, and is so arranged as not to detain the coach more than three minutes at each post-office on the road.

Successful and novel speculation.—We have it from good authority, that a gentleman in New-York shipped 15,000 bbls. of apples to Europe last fall; and that they sold at Liverpool at an average price of three guineas per bbl. *Alb. Argus.*

FROM THE MILLEDGEVILLE JOURNAL, JAN. 6
*Copy of a letter from maj. gen. Gaines, dated Head-
quarters, Amelia-Island Dec. 27, 1817.*

SIR—I have the pleasure to inform you, that this place was taken possession of by detachments of the United States' land and naval forces under col. Bankhead and commodore Henley, on the 23d of the present month, without the effusion of blood.

The militia required in this quarter will be sent towards the Indian frontiers—two companies to Trader's hill, and the residue further to the westward; whither I shall direct my steps in the course of four or five days. I have the honor to be, very respectfully, your most obd't servant,

EDM'D. P GAINES.*His excellency Governor Rabun.*

A letter received in Baltimore, from a respectable old Castillian, residing in St. Augusta, dated December 14, states, there is an impression there that the Province is, in a short time to be ceded to the United States; which will be very satisfactory to the inhabitants.—*Gaz.*

NORTH-WEST PASSAGE.

LONDON, Nov. 28.
It is said that a vessel is to be fitted out for the purpose of attempting again the N. W. passage, the season being considered as peculiarly favourable to such an expedition. Our readers need not be informed that larger masses of ice than ever were before known have this year been seen floating in the Atlantic, and that from their magnitude and solidity, they reached even the 40th latitude before they were melted in a fluid state.—From an examination of the Greenland captains it has been found that owing to some convulsions of nature, the sea was more open and free from compact ice than in any former voyage they ever made; that several ships actually reached the 84 degree of latitude, in which no ice whatever was found; that, for the first time for 400 years, vessels penetrated to the west coast of Greenland, and that they apprehended no obstacle to their even reaching the Pole, if it had consisted with their duty to their employers to make the attempt. This curious and important information has, we learn, induced the Royal Society to apply to Ministers to renew the attempt of exploring a north-west passage, as well as to give encouragement to fishing vessels to try how far northward they can reach by dividing the country to be given, on the actual discovery, into portions as a reward for every degree beyond 84 that they shall penetrate.

For the same reason, it would probably be advisable for the Merchants engaged in the Greenland and Whale Fishery not to postpone the sailing of their ships to the usual season, but to expedite them at once, so as to take advantage of the temporary fresh. We are sure the present price of oil ought to encourage them to the attempt, if it be practicable.
